New Restaurant Coming to Garden City Park Shopping Center

June 14, 2011

A new restaurant called Mother's House will be coming to Garden City Park.

ABS Partners Real Estate, LLC, retail specialists Steven Solomon, associate managing director and Jason Kling, associate, found a freestanding 10,000 square-foot location in the Hyde Park Shopping Center on Jericho Turnpike in Garden City Park for the restaurant ownership. The restaurant is expected to have its grand opening after Labor Day.

"We were delighted to find this unique freestanding restaurant opportunity in this heavily traveled location," said Solomon in a statement. "Their Mother's House concept will do well in this exceptional location."

Mother's House restaurant is designed to be a friendly, neighborhood establishment featuring value-priced, high-quality food and beverage items in a relaxed, casual and comfortable atmosphere. The menu will provide made-from-scratch food including standard American-fare dishes that were once common on the dinner tables across the United States such as delicious steaks, original pasta dishes, fresh seafood, healthy salads, robust sandwiches and homemade desserts. An extensive specialty cocktail list, wine list, and wide selection of beers from around the world will also be available.

"Mother's House will appeal to a wide range of customers including families, young adults, and business professionals for everyday dining and special gatherings," noted Kling. "This Long Island location is a perfect choice to hit the target market the owners desire."

The Mother's House management is also committed to investing in the community by teaming up with local schools, churches, synagogues, police, and fire departments to donate both meals and time. They will also utilize a number of green initiatives in the restaurant such as solar reflective windows, automatic plumbing fixtures that reduce water usage, energy saving products that automatically turn off lights and heating, ventilation, and air conditioning controls that coordinate with kitchen equipment to maximize efficiency.

The team behind the Mother's House concept has a long history of entrepreneurialism and has operated a variety of successful hospitality concepts including the Tick Tock Diners in Clifton, N.J. and New York City, LaVigna Italian Restaurant in the New Yorker Hotel, Neptune Diners in Astoria, Queens and Westchester and the Inn on the Harbor in Cold Spring Harbor.
